Professional Summary

Full-Stack Software Engineer with 3+ years of professional experience specializing in PHP, Laravel, and JavaScript. Expertise in architecting scalable applications for enterprise and government sectors, focusing on REST APIs, database performance, and responsive UI design. Experienced in collaborative project management and Git-based workflows to ensure high-quality, timely feature delivery and system performance enhancements.

Experience

Assistant Software Engineer, Swapnoloke—Mirpur-DOHS, Dhaka Jan 2026 – Present

- Own the full feature lifecycle from planning to production, ensuring quality and timely delivery.
- Manage Git workflows and pull request reviews to ensure codebase integrity.
- Implemented a secure multi-auth system using Laravel Guards to handle distinct access levels for administrators and field members.
- Mentor and support junior developers with code reviews and Laravel best practices, design patterns, and clean code principles.

Junior Software Engineer, Swapnoloke—Mirpur-DOHS, Dhaka Mar 2024 – Dec 2025

- Designed and implemented RESTful APIs for the AVMIS mobile application to ensure seamless data synchronization.
- Improved storage and system speed through automated image compression for large uploads.
- Optimized database performance using efficient Eloquent ORM queries and Laravel Collections.
- Managed large-scale Excel imports and asynchronous SMS delivery via Laravel Queues and Workers to optimize background processing.

Apprentice Software Engineer, Swapnoloke – Mirpur-DOHS, Dhaka Jun 2023 – Mar 2024

- Contributed to building scalable web applications using PHP, Laravel, MySQL, and JavaScript.
- Collaborated with senior engineers to deliver 3+ enterprise-grade projects on schedule.
- Developed responsive, user-centric web interfaces using Bootstrap, CSS, and jQuery.

Technical Skills

Languages: PHP, JavaScript (ES6+), SQL, Node.js, C/C++

Frameworks & Libraries: Laravel, Express.js, jQuery, Bootstrap

Databases & ORM: MySQL, Eloquent ORM

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, HeidiSQL, Trello, Slack

Specializations: RESTful API Development, Responsive UI Design, Performance Optimization, Project Management

Projects

Ansar & VDP Management and Information System (AVMIS) avmis.ansarvdp.gov.bd

- Developed a centralized MIS with RESTful APIs for seamless mobile data synchronization.
- Engineered an automated onboarding system with NID verification and multi-tier admin approval workflows.
- Implemented dynamic reporting and profile management to automate verification and assignment tracking in large-scale databases.

Short-Term Deployment Management System (STDMS) stdms.ansarvdp.gov.bd

- Engineered an automated deployment system and payroll generation system for paramilitary forces, integrating real-time MFS account validation.

- Implemented secure MFS-based disbursement engines and dynamic reporting modules to facilitate fund distribution and maintain comprehensive audit trails.

Hazrat Shahjalal International Airport (HSIA) Web Portal

hsia.gov.bd

- Built a high-traffic airport portal integrating live flight schedules and passenger service modules to enhance user experience.

CRM System for HSIA

- Developed a communication-focused CRM allowing multi-user messaging and automated inquiry routing for airport administration.

Defence Services Command and Staff College (DSCSC) Portal

dscsc.mil.bd

- Designed a secure, multi-user membership system with role-based access control (RBAC) and profile management for military personnel.

Online Exam Management System (City Bank)

- Developed a software solution using a custom REST API to automate the management and secure delivery of exam results for City Bank.

MAC Finder Application

- Built a Node.js and Express-based utility to identify client MAC addresses, focusing on low-latency network communication.

Education

Southeast University

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering

Jan 2018–Dec 2022

Certifications

PHP with Laravel Framework – Skills for Employment Investment Program (SEIP), Bangladesh (2022)

Professional English Communication Skill – WSDA, New Zealand (2022)

Publications

Forecasting Student Clothes Purchases Intention in Bangladesh: A Machine Learning Approach

Feb 2023
